Statement of Fees

All Health Training provides each student with an individual Statement of Fees upon application. This document includes the following details for review prior to confirming enrolment:

- Course fees, including tuition, resources, and any applicable placement fees
- Practical placement arrangements (if applicable)
- Hourly tuition fees

Please note that student tuition fees may change based on individual circumstances at enrolment, such as Credit Transfer/RPL applications.

The quoted fees include all course-related costs and resources (e.g., textbooks, workbooks, polo shirts, etc.), but may be subject to change depending on individual enrolment circumstances.

Fees for 2026

From 2026, the **Victorian State Government, through the Department of Jobs, Skills, Industry and Regions (DJSIR)**, has significantly reduced training funding for many private Registered Training Organisations. As a result, **government-funded places are not available** at All Health Training, and enrolments are offered on a **fee-for-service basis**.

All Health Training remains committed to delivering high-quality, industry-aligned healthcare training and continues to invest in face-to-face delivery, practical learning environments, and experienced trainers.

Training Options at All Health Training

- Competitively priced courses compared with many TAFEs and other training providers
- Flexible payment options to support access to training
- Flexible delivery models, including **classroom-based**, **blended**, and **flexible delivery options**, depending on the qualification
- Small class sizes to support individualised learning and direct trainer access
- Structured vocational placement opportunities organised by AHT where required
- Strong employment outcomes, with approximately **80–90% of students gaining employment during or shortly after completion**

Prospective students are encouraged to contact our team to discuss course availability, delivery options, and the most suitable training pathway.

Need help with payment options or want to find out more? Our team is here to chat, call us on 03 9894 3900
